

Compost Bin and Carton Recycling

Project Title	Compost Bin and Carton Recycling
Project Summary	The goal is to find ways or at least one way to recycle carton. The country doesn't have a recycle center and doesn't reuse carton. I would like to introduce the idea of a compost bin.
Country	Papua New Guinea
Agency	Department of State
DoS Office	N/A
Post	PORT MORESBY
Section	OBO
Number of Interns	3

Project Description

The compost bin will be used by all the staff to get fertilized soil for their gardens and at the embassy for the grounds.

Recycling is the number one problem in this country. The country only recycles metal, but my construction generates hundreds of tons of carton and plastics. I need to find a sensible way to reuse these materials other than dumping it at the sea.
