

Mexico's Climate Change, Water, and Environmental Programs

Project Title	Mexico's Climate Change, Water, and Environmental Programs
Project Summary	Analysis of Mexico's Climate Change, Water, and Environmental Programs
Country	Mexico
Agency	Department of State
DoS Office	N/A
Post	MEXICO CITY
Section	ESTH
Number of Interns	2

Project Description

Collect, analyze, and summarize media and government and academic data and reports on aspects of Mexico's climate change, clean energy, water, and environmental programs, laws, and regulations. Assist, as appropriate or time allows, with drafting social media content to advance U.S. government messages on climate, water, and environmental efforts.

Analytical Writing

Additional Information

The ideal candidate would have a strong understanding of written Spanish, knowledge of or interest in climate change, renewable energy and other environmental issues, and strong writing abilities in English. Comfort with Excel spreadsheets for simple data and graphical analysis would be beneficial. 2-5 hours per week will be required to gather, analyze, and summarize information. Occasionally additional time may be required to meet a deadline.
