Project Description

You'll create a video series that showcases different aspects of American culture for a part of Pakistan that has little interaction with Americans. Videos should be short and engaging. Themes can include but are not limited to, food, holidays, travel, history, art and campus life. You should expect to produce at least one video per week throughout the course of the internship. We want you to share your personality and perspective. You should be comfortable in front of the camera and be able to plan and film elaborate shots that complement the story and give the audience a sense of being there. Think of it as taking the audience on a trip through America. You may also be asked to participate in webchats or skype sessions with students in Peshawar. Due to the time difference, these may fall at night during the student's time.
