Country	Canada
Agency	Department of State
DoS Office	N/A
Post	OTTAWA
Section	EducationUSA
Number of Interns	1

Project Description

EducationUSA is funded by the U.S. Department of State and exists to help students around the world with the U.S. higher education application process. The center in Ottawa is responsible for reaching out to all Canadians, and thus, the strength of our virtual resources is vital. Virtual interns for EducationUSA Canada will create, maintain, and update education resources that are free to the 27,240 Canadians who study in the United States each year. Your role will be to ensure the highest quality of our digital resources, in order to provide timely, accurate, and unbiased information about U.S. higher education to Canadian students. You will also have a chance to become involved with other interesting projects, as they become available. EducationUSA Canada has three virtual interns and encourages them to work together when their tasks intersect. The other two intern's titles are "Social Media and Infographic Innovator" and "Video Editing and Management."

Desired Skills Interests

Skill

Graphic design

WordPress

Adobe Indesign

Additional Information

Familiarize yourself with EducationUSA Canada and our resources by viewing our website (educationusacanada.ca), Facebook page (EducationUSA Canada), Twitter (@EdUSACanada), and Instagram (@edusa_canada)

EducationUSA Canada wants to give virtual interns a chance to use and hone their skills, as well as explore areas they would like to grow in. However, you will also have a chance to become involved with other interesting projects, as they become available. EducationUSA Canada has three virtual interns and encourages them to work together when their tasks intersect.
