

# Vietnam Cyber Review

Project Title	Vietnam Cyber Review
Project Summary	Graphically compare Cyber area of responsibilities between US and Vietnam using public available policy information.
Country	Vietnam
Agency	Department of State
DoS Office	N/A
Post	HANOI
Section	IM
Number of Interns	2

## Project Description

This project is expected to last three months. Cyber policy is quickly evolving. This project will help map out the US and VN offices areas of responsibilities and highlight potential mutual engagement. This will include reviewing VN and US Cyber policy, graphics, and the web. There are best practices in cyber that include a multi-stake holder approach and engagement across; government, business, and academic. As one of the most exploited countries in the world, where can the US and VN best benefit from collaboration? Success will include a 2-5 slides mapping out the similar offices across US and VN that have cyber responsibilities and 3-4 page document highlighting gaps and areas of mutual interest.
