

Buenos Aires Intranet Home Page Renovation

Project Title	Buenos Aires Intranet Home Page Renovation
Project Summary	To create a new home page on the Intranet site.
Country	Argentina
Agency	Department of State
DoS Office	N/A
Post	BUENOS AIRES
Section	ISC
Number of Interns	1

Project Description

Embassy Buenos Aires wants to revamp our Intranet SharePoint home page. The current site is based on the generic Dept. of State (DoS) template used by the vast majority of other posts. We want it to stand out as dynamic, streamlined and easier than the current design to find information. It should also have a polished, professional look. We have some ideas of what it should look like, but much of the input and ideas should come from an experienced web designer.
