# Help increase data utilization through the office of country support.

| | |
|---|---|
| Project Title | Help increase data utilization through the office of country support. |
| Project Summary | Seeking graduate students to assist the office of country support in analyzing and visualizing existing data |
| Country | United States |

## Project Description

The Bureau for Resilience and Food security has collected years of data that is not used as much as we would like. We would like an energetic and self-driven graduate student to help us make this data more accessible thereby increasing usage with the end goal of contributing to better programming. In this internship, you will assist with cleaning data sets, pulling reports, analyzing trends, and data visualization.
