Use your teaching and mentoring skills to guide EducationUSA Competitive College Club students

Project Title	Use your teaching and mentoring skills to guide EducationUSA Competitive College Club students
Project Summary	EducationUSA Armenia is looking for interns who will assist Armenian motivated and talented students seeking admission to U.S. colleges and universities. VSFS interns will help students to develop their college application skills through webinars, peer advising, and individual assignments.
Country	Armenia

Project Description

If you are interested in cross-cultural communication, leadership, and youth development and would like to gain international students advising work experience, then this internship is a perfect fit for you!

Selected VSFS interns will:
• Acquire cross-cultural communication and networking skills by broadening awareness about Armenia, one of the ancient countries in the world. With the help of bright Armenian students, they will know more about Armenian history and culture and will develop strong relationships with future leaders.
• Boost their youth development and leadership competencies as well as will increase knowledge on ways and methods of teaching while advising and coaching the students.
• Develop professional skills to work online and remotely which is becoming so important nowadays.
• Enhance presentation and public speaking skills and gain confidence by delivering a series of webinars on different soft skills important for international students.

Two interns (Bachelor's and Master's degree students) are needed for EducationUSA Armenia to work with enthusiastic and highly motivated Armenian students to help them fulfill their desire to study in the U.S. higher education institutions. Each intern will facilitate their respective group of students who are seeking undergraduate or graduate admission by leading virtual workshops/presentations on the U.S. admissions process, sharing their college experiences, proof-reading essays and motivation letters, leading online book discussion, and virtual test preparation sessions, conducting mock college interviews, etc.

Interns will contribute and bring value in reaching the overall goal of EducationUSA Armenia Competitive College Club: to provide academic advising and information on all the steps and processes necessary to not only apply but to have a stellar application and be a very competitive candidate from Armenia!

Required Skills or Interests

Skill(s)

Additional Information

The Competitive College Club (CCC) is an EducationUSA-branded cohort intensive advising program that helps highly motivated and talented Armenian students to apply for U.S. colleges and universities. CCC guides its members through the admissions process, helping each student identify which programs are the best fit for their goals and figure out how to get there.
EducationUSA Armenia is one of the hundreds of advising centers around the world supported by the U.S. Department of State. The Center provides students with accurate, comprehensive, and current information about how to apply to U.S. colleges and universities. Interns selected for the project will work under the supervision of EducationUSA Adviser and engage with students in the Competitive College Club program.
