

Monitoring and Evaluation for Women's Economic Empowerment Programs

Project Title	Monitoring and Evaluation for Women's Economic Empowerment Programs
Project Summary	Review literature on monitoring and evaluation frameworks for women's economic empowerment programs and identify best practices.
Country	United States

Project Description

The Virtual Intern will conduct a literature review, including of publicly available USG data on women's economic empowerment programs (through the State Department, as well as the U.S. Agency for International Development, Millennium Challenge Corporation, and other relevant federal agencies) to identify best practices and develop a "toolkit" of rigorous metrics to consider for program design, particularly in support of programs to advance women's workforce participation and women's entrepreneurship.
