Additional Information

EducationUSA is the U.S. State Department's global network promoting U.S. Higher Education. The two REACs mentoring this position are based in Qatar and the United Arab Emirates. The project consists of reviewing presentations used by the various EdUSA centers for the standard 5 step to U.S. Study sessions, updating and consolidating them to create a reference standard template, identify training topics to assist advisers (i.e. designing presentations, creating regional overview sessions, virtual program delivery, outreach strategies in a virtual context, etc.), communicating with adviser working groups, and working with REACs to

create training modules.
