

Help Peace Corps Hire & Retain a Diverse Workforce

Project Title	Help Peace Corps Hire & Retain a Diverse Workforce
Project Summary	Analyzes qualitative and quantitative data to better assist with understanding policies, procedures, practices that constitute barriers to a diverse and inclusive workforce and welcoming workplace.
Country	United States

Project Description

This project analyzes information available to the Office of Civil Rights and Diversity (OCD) to better understand the policies, procedures, and practices that constitute barriers to recruiting, hiring, retaining, and promoting a diverse workforce. Working in coordination with OCD staff, this role includes data analysis (qualitative and quantitative data), development of data visualizations, and the possible production of associated reports. The results of analysis will be used by the Barrier Analysis Project Team to support the ongoing efforts to reduce and/or eliminate all barriers to a diverse and inclusive workforce and welcoming workplace. Other duties may be assigned as needed.
